

# SCIENCE-BASED THE BASICS OF ATHEISM

What  
is it?

The disbelief or \_\_\_\_\_ of belief in the existence of God or gods

The word 'atheism' comes from the \_\_\_\_\_ 'a', which means no, and 'theos' which means god.

Other  
Definitions

Where does  
the 'burden  
of proof' lie?

1. There is no God or devil
2. No \_\_\_\_\_ realm
3. \_\_\_\_\_ cannot occur
4. No such thing as \_\_\_\_\_
5. Universe is materialistic/measurable
6. Man is \_\_\_\_\_
7. Evolution is scientific \_\_\_\_\_
8. Ethics/morals are relative

1. Someone who believes and/or \_\_\_\_\_ there is no god.
2. Lacks \_\_\_\_\_ in god
3. Exercises no faith in the \_\_\_\_\_ of god at all
4. Someone free from religious \_\_\_\_\_ and bigotry
5. A free-thinker; free from \_\_\_\_\_ and its ideas.

With \_\_\_\_\_

Science claims that you cannot truly know something until \_\_\_\_\_

If left \_\_\_\_\_, then the default position must be 'I don't know'

Problems  
with this  
point of  
view

1. Religion & Science do not \_\_\_\_\_ one other
2. The \_\_\_\_\_ scientific consensus
3. The \_\_\_\_\_ problem

So, is it
